WORK EXPERIENCE

Daftech Computer Engineering
As a frontend developer with a strong focus on JavaScript and the React framework, my responsibilities include developing, debugging, and fixing issues within the application. I have been actively engaged in this role since March 1st, 2021, and will continue until September 4th, 2022.
Bazra Tech
Since November 1st, 2022, I have gained expertise in building robust and scalable web applications using Express.js. I have worked on projects involving RESTful API development, server-side rendering, implementing middleware functions for authentication and error handling. Additionally, I have optimized application performance using caching mechanisms and load balancing techniques. As a mobile app developer specializing in Dart and the Flutter framework, I have also been actively engaged in this role since November 1st, 2022. My responsibilities include developing high quality, efficient, and maintainable mobile applications using Flutter and Dart, participating in code reviews, ensuring the best possible CI/CD practices, and staying updated with technological advancements to deliver top-quality mobile applications for diverse client requirements. With my combined experience in Express.js and mobile app development, I am confident in my ability to deliver high-quality web and mobile solutions
